# Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

## Chair's Statement and Operational Review

It is my pleasure to present the Annual Report and the Audited Financial Statements for Bradda Head Lithium Limited (the "Company" or "Bradda Head") for the year ended 28 February 2025. The 2024/2025 year has been a continuing challenge in a tough lithium market space. It nonetheless has been a busy period for the Company, focussing on our key lithium clay, pegmatite and oil brine projects, and we remain confident in our ability to navigate these tough times towards a successful future for all Bradda supporters.

As 2025 has unfolded, there is a growing optimism in the lithium pricing environment that should positively impact on market related values. Bradda Head continues to position itself in the sector and to take advantage of this rising tide through intelligent and strategic lithium exploration, utilizing the space with our 'American' based team and continuing to identify opportunities impactful to the Company as well as to preserve our cash in treasury to be able to take advantage of any appropriate opportunity.

### Operational Review

#### Arizona Sedimentary Hosted Lithium Projects Basin Project

Our 2024 Basin exploration drilling programme concluded in May 2024 with the goal of significantly expanding the lithium in clays footprint into the Basin North target. The expansion of clay continues in most directions and extension opportunities remain an objective of the Company's focus. As anticipated, the 2024 drilling resulted in significant expansion and upgrading of the Mineral Resource Estimate, previously released on 28 September 2023.

Based on 2,380.24m of core drilling completed as part of the 2024 Basin drill programme, Bradda Head expanded the Lithium Carbonate Equivalent ("LCE") from 1.0 Mt in the three Mineral Resource categories, for an updated total Inferred/Indicated/Measured LCE content of 2.81 Mt. The total new Mineral Resource now comprises 20 million tonnes in the Measured at 929 ppm and 99kt of LCE, the Indicated category at 860 ppm carrying 560kt LCE, and 122 million tonnes, and the Inferred category at 810 ppm, carrying 2,150kt LCE and 499Mt. This was a significant milestone for the Basin Project, with the increase from 1.0 to 2.81Mt LCE being achieved.

As per the Gross Overriding Royalty Agreement with the Lithium Royalty Company ("LRC"), this new contained LCE Tonnage, which exceeded the contracted threshold of 2.5 million tonnes LCE, enabled the Company to trigger and receive the payment of the final US\$ 3.0 million from LRC in the year.

#### Mineral Resource Statement for Basin East, Basin East Extension and Basin North effective 2 July 2024

Classification	Domain	Tonnes	Mean Grade	LCE (kt)
		Mt	Li (ppm)	LCE (kt)
Measured	Upper Clay	13	720	48
	Upper Clay HG	7	1,316	49
	Lower Clay	1	687	2
	Subtotal	21	929	99
Indicated	Upper Clay	90	794	382
	Upper Clay HG	18	1,302	126
	Lower Clay	14	713	52
	Sub Total	122	860	560
Inferred	Upper Clay	316	741	1,246
	Upper Clay HG	90	1,154	555
	Lower Clay	92	709	348
	Sub Total	498	810	2,149

## Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

### Chair's Statement and Operational Review (continued)

- Mineral Resource statement has an effective date of 2 July 2024.
- The Mineral Resource is reported using a cut-off grade of 550 ppm Li and is constrained to an optimized open pit shell, which was generated using the following assumptions: lithium carbonate metal prices of 17,200 USD/tLCE; State of
- Arizona royalty (selling cost) of 6%; operating costs of 35 USD/ tonne; Li recovery of 72%; mining dilution and recovery of 0% and 100%; and pit slope angle of 45°.
- Tonnages are reported in metric units.
- Rounding as required by reporting guidelines may result in apparent summation differences between tonnes, grade and contained metal content which are not considered material.
- Conversion factor of Li metal to lithium carbonate equivalent (LCE) = 5.323
- The figures above are reported on a gross basis given Bradda's 100% interest in the property

The Mineral Resource Update analysis used a stringent approach to both the in-situ density measurement and the cut-off grade utilised. A lower in-situ density and higher cut-off grade than previously reported resulted in a more robust estimate. Both of these measures are currently under review for application into the next drilling campaign and resource expansion.

The recent drill results from Basin North solidify Bradda Head's belief in a widespread and continuous lithium-rich stratigraphic sequence, with potential even further into Basin North and across to Basin West that the Company believes will lead to significant resource growth and opportunity to become a Tier 1 lithium deposit.

Post year-end, the Company continues to work towards permitting Basin West with the completion and approval of the Environmental Assessment (EA) with the BLM. The Company has outlined numerous high priority drill targets and compelled to remain on course, working with the BLM to complete the EA for approval of exploration drilling.

#### *Wikieup Project*

On 28 February 2024, the Company announced the completion of the land exchange over the unpatented lode claims at the Wikieup clay project in Western Arizona. Bradda Head retained 66 new claims equating to 1,302 acres (5.27 km<sup>2</sup>), which the Company staked in early 2019, and held in its subsidiary Zenolith (USA) LLC. In turn, Bradda Head transferred 55 unpatented lode claims to Arizona Lithium's subsidiary, Big Sandy Inc., to the amount of roughly 1,136 acres (4.60 km<sup>2</sup>), per the terms of this settlement.

The Company trimmed back claims across the southern end of the block after reviewing the property and determination of the absence of clays. The Company also dropped all placer claims (considered duplicate of the lode claims) as part of a Companywide cost reduction.

#### *Arizona Pegmatite Hosted Lithium Project San Domingo Project*

The Company embarked on identification of new targets and strengthened current targets by conducting new surface sampling, specifically, channel sampling, on pegmatite exposures proximal to exciting drill hole intercepts. As new targets were defined, exploration drill hole permitting was undertaken to gain access to the new areas.

While previously known and location of several high-grade surface samples, the Dragon target underwent detailed geologic mapping, channel sampling, and rock chip sampling, resulting in the identification of quality targets for drilling. A new NOI (Notice of Intent) was submitted to the BLM, approval of which was approved and bonded post year-end.

The following table outlines surface exposures with sound lithium and caesium channel sample results at Dragon.

## Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

### Chair's Statement and Operational Review (continued)

- 8.80m @ 0.97% Li<sub>2</sub>O with 174 ppm Cs at Dragon South
- 10.40m @ 0.68% Li<sub>2</sub>O with 341 ppm Cs at Dragon South
- 4.80m @ 0.41% Li<sub>2</sub>O with 336 ppm Cs at Dragon North
- 9.00m @ 0.29% Li<sub>2</sub>O with 325 ppm Cs at Dragon North
- 4.70m @ 0.28% Li<sub>2</sub>O with 176 ppm Cs at Dragon North
- 1.90m @ 0.29% Li<sub>2</sub>O with 609 ppm Cs at Dragon South

New channel sampling was undertaken at Midnight Owl, resulting in the discovery of high-grade surface exposures proximal to the 2022-2023 drilling campaigns. One new set of channel samples discovered 8.40m at 1.17% Li<sub>2</sub>O with 623 ppm Cs and 625ppm Ta<sub>2</sub>O<sub>5</sub>, all of which indicate highly mineralized and fractionated pegmatites. The exposures are proximal to drill holes that appeared to narrowly miss the down-dip extension of the spodumene bearing pegmatite outcrops. The pegmatite outcrops, along with new geologic mapping and re-interpretation of the drill holes suggests new and shallow drilling is warranted to test a shallow-dipping body of pegmatite.

The Ruby Soho target was newly discovered during follow-up reconnaissance on soil sample anomalies, leading to further surface sampling. Results show a roughly 300-meter pegmatite strike length with values ranging from 0.25 to 3.57% Li<sub>2</sub>O from spodumene. The discovery quickly led to definition of drill targets for further drill permitting. Drill hole permitting at Midnight Owl and Ruby Soho was undertaken by amending the existing NOI (Notice of Intent) and was implemented with the BLM, final decision and approval was granted post year-end.

#### *Nevada Brine Hosted Lithium Projects Eureka and Wilson Salt Flat*

No significant work has been undertaken on this project during the current year.

#### *Environment, Social and Governance ("ESG")*

The Company continues to strive to conduct itself with the highest standards, following Best Management Practices ("BMP") in its operations and aims to achieve outstanding performance in ESG related matters.

The Company works closely with both State and Federal levels when it comes to permitting, reclamation, and communications. At each step of the exploration process, both prior to and during drilling, the Company is in regular discussions with all related stakeholders in our claims, including local councils, tribal representatives, and government officials.

The Company invited the town council from Wickenburg to our Basin drilling project. Wickenburg is our base of operations and nearest large town. A total of seven people attended, consisting of town council, town manager, and vice mayor. They voiced their support for lithium exploration and hoped to see us eventually develop the project, perhaps to a mining stage. They were impressed by the small drilling footprint and small operations. The commended us on the transparency to explain and share how mineral exploration takes place and how we mitigate environmental impact.

The Company also utilised a water well in close proximity to the Basin project, which greatly reduced the distance the water truck must travel to obtain water for drilling. This reduces our water truck carbon footprint by minimizing the distance of water source to the project, now only 4 miles as opposed to 50 miles distance and limits fugitive dust production. When necessary, the water truck will lay water on the dirt roads to reduce dust. The Company also looks to secure contracts with drillers whose equipment is new and modern, very compact, has efficient fuel consumption, in order to lower emissions and size of drill site construction.

When core drilling at any of our projects, sumps are made and lined with plastic to capture all fluids that in turn, are recycled in the drill hole, thus reducing water consumption.

#### *Financial Review*

For the year ended 28 February 2025, the Company recorded a net profit of US\$ 1,100,162 (29 February 2024: US\$ 1,503,858). The net profit is after receipt of the final tranche of royalty monies from the Lithium Royalty Company, the net amount being US\$ 2,943,992 (29 February 2024: US\$ 2,370,127).

## Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

### Chair's Statement and Operational Review (continued)

As at year end, cash and cash deposit balances stood at US\$ 1,086,596 (29 February 2024: US\$ 1,666,662), capitalised deferred mining, exploration, licence, and permit costs stood at US\$ 15,421,152 (29 February 2024: US\$ 13,807,158), and total assets were US\$ 16,779,135 (29 February 2024: US\$ 15,848,063). The Company is in a net asset position of US\$ 16,658,327 (29 February 2024: US\$ 15,661,704).

In light of the challenging market conditions and suppressed lithium prices, the Company has streamlined its corporate overheads. The net effect of this effort means that we continue with our 'steady as she goes' approach with no superfluous costs and intend to move forward with the next steps at our Basin and San Domingo projects.

On 20 May 2024, the Company announced that it entered into a settlement agreement regarding the fraudulent payment made to an unidentified party, as disclosed in the prior year accounts. Pursuant to the settlement agreement, the Company has been partially reimbursed for the fraudulent funds transfer. The partial settlement is consistent with Company's expectations at the time of initiating enforcement proceedings with gross recovery of approximately 40% of total misappropriated funds. Bradda Head confirms that the Agreement provides for no admission of liability by either party involved and the full commercial terms of the settlement are subject to strict confidentiality obligations on both parties so it will not be making any further comment on this matter.

#### *Approach to Risk and Corporate Governance*

*"The Company's general risk appetite is a moderate, balanced one that allows it to maintain appropriate growth, profitability and scalability, whilst ensuring full corporate compliance."*

The Group's primary risk drivers include: -

Strategic, Reputational, Credit, Operational, Market, Liquidity, Foreign Exchange, Capital and Funding, Compliance and Conduct.

Our risk appetite is classified as High under an "impact" matrix defined as Zero, Low, Medium, and High. Appropriate steps have been taken and adequate controls implemented to monitor the risks of the Company, and the appropriate committees and reporting structures have been established to monitor risks facing the Company.

Our Corporate Governance Report outlining our adherence to the Quoted Companies Alliance Code is detailed on page 11.

#### *Financing*

With effect from 24 October 2024, the Company delisted its shares from trading on the Canadian TSX Venture Exchange, due to share trading liquidity expectations not having been met and cost saving in this current market environment.

The Company's shares continue to trade on the London AIM Market.

## **Bradda Head Lithium Limited**

*Annual report and consolidated financial statements for the year ended 28 February 2025*

### **Chair's Statement and Operational Review (continued)**

#### *Strategy and Outlook*

The election of Donald Trump has resulted in some changes to the Inflation Reduction Act ("IRA"), but primarily proposals and new laws or executive orders related to subsidies in the solar and wind turbine industry, with some towards ending EV tax incentives. Alternatively, mining and sourcing critical minerals in the USA is a priority, as evident by many mine permits being issued and new regulations towards "fast-tracking" existing pending permits through the BLM.

The signing of several executive orders has highlighted several mining projects and fast-tracking of permits such as Standard Lithium/Equinor South West Arkansas Lithium Brine Extraction Project, Albemarle's Silver Peak lithium mine in Nevada, and the McDermitt lithium exploration project, also in Nevada. The US remains committed to the advancement and mining of critical minerals, which includes lithium, and mine permits (FAST-41, for example) will be expedited to meet the US agenda and reduce reliance on foreign supply chains.

The new administration's policies are viewed as extremely positive and Bradda Head feels confident our US based projects will benefit from these new policies and streamlined regulations.

**Ian John Stalker**

## **Directors' Report**

The Directors present their annual report and the consolidated financial statements for Bradda Head Lithium Limited (the "Company") for the year ended 28 February 2025.

### **Principal activity**

Bradda Head Lithium Limited is a lithium exploration Group focused on developing its high-quality projects in the USA.

### **Results and transfers to reserves**

The results and transfers to reserves for the year are set out on pages 25 to 29 of the consolidated financial statements.

The Company made a total comprehensive profit attributable to equity shareholders for the year after taxation of US\$ 1,100,162 (2024: loss of US\$ 1,503,858).

### **Dividend**

The Directors do not propose the payment of a dividend for the year (2024: US\$ Nil).

### **Policy and practice on payment of creditors**

It is the policy of the Company to agree appropriate terms and conditions for its transactions with suppliers by means of standard written terms to individually negotiated contracts. The Company seeks to ensure that payments are always made in accordance with these terms and conditions.

### **Financial risks**

Details relating to the financial risk management are set out in note 18 to the financial statements.

### **Directors**

The Directors who served during the period and to date are:

Denham Eke  
James Mellon  
Ian Stalker  
Euan Jenkins  
Alex Borrelli

# Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

## Directors' Report (continued)

### Directors' interests

As at 28 February 2025, the interests of the Directors and their families (as such term is defined in the AIM Rules for Companies) in the share capital of the Company are as follows:

	28 February 2025		29 February 2024	
	Number	% of issued share capital	Number	% of issued share capital
James Mellon <sup>1</sup>	73,097,004	18.72%	73,097,004	18.72%
Denham Eke	124,307	0.03%	124,307	0.03%
Ian Stalker <sup>2</sup>	3,870,140	0.99%	3,870,140	0.99%
Euan Jenkins	2,198,934	0.56%	2,198,934	0.56%
Alex Borrelli	343,329	0.09%	343,329	0.09%
	<b>79,633,714</b>	<b>20.39%</b>	<b>79,633,714</b>	<b>20.39%</b>

<sup>1</sup> James Mellon's interest comprises of 71,879,831 (2024: 71,879,831) shares directly held by Galloway Limited, which is indirectly wholly owned by James Mellon. Denham Eke is a director of Galloway Limited. Burnbrae Limited holds 200,000 (2024: 200,000) shares, which is indirectly wholly owned by James Mellon. Denham Eke is a director of Burnbrae Limited. A total of 1,017,173 (2024: 1,017,173) shares are held directly by James Mellon.

<sup>2</sup> Ian Stalker's interest comprises of 3,699,690 (2024: 3,699,690) shares directly held by Promaco Limited, which is wholly owned by Ian Stalker. The balance of 170,450 shares is held directly in his name.

### Significant shareholdings

Except for the interests disclosed in this note, the Directors are not aware of any holding of ordinary shares as at 25 February 2025 representing 3% or more of the issued share capital of the Company:

	Number of ordinary shares	Percentage of total issued capital
James Mellon <sup>1</sup>	73,097,004	18.72%
Zenith Minerals Limited	43,959,305	11.25%
Hargreaves Lansdown private clients	36,773,237	9.41%
Nigel Wray	20,375,000	5.22%
Interactive Investor (EO)	19,103,458	4.89%

Annual report and consolidated financial statements for the year ended 28 February 2025

## Corporate Governance Statement

The Board of Bradda Head Lithium Limited (the “Board”) is committed to best practice in corporate governance throughout the Company (the “Company”). The Directors have agreed to comply with the provisions of the Quoted Companies Alliance (“QCA”) Corporate Governance Code for Small and Mid-Size Quoted Companies (2018) to the extent which is appropriate to its nature and scale of operations. This report illustrates how the Company complies with those principles.

In November 2023 a revised QCA code was released, which is effective for periods commencing on or after 1 April 2024. The key updates include:

- Wider Stakeholder Interests: Enhanced focus on ESG responsibilities and stakeholder engagement (Principle 4).
- Board Composition: Stricter requirements for board independence and diversity (Principles 6 and 7).
- Succession Planning: Emphasis on clear succession strategies (Principle 8).
- Remuneration Policy: New guidelines to align remuneration with long-term value creation (Principle 9).

As permitted by the guidance set out by the revised QCA code, the transitional period of 12 months following 1 April 2024 is being utilised to put in place measures to embrace the key updates to the QCA code where possible.

*QCA Principle 1: Establish a strategy and business model which promotes long-term value for shareholders*

The strategy and business operations of the Company are set out in the Chair’s Statement and Operational Review on pages 4 to 8.

The Company’s strategy and business model and amendments thereto are developed by the Chair and his senior management team and approved by the Board. The management team is responsible for implementing the strategy and managing the business at an operational level.

The Company operates in an inherently high-risk sector, and this is reflected in the principal risks and uncertainties.

In executing the Company’s strategy and operational plans, management will typically confront a range of day-to-day challenges associated with these key risks and uncertainties and will seek to deploy the identified mitigation steps to manage these risks as they manifest themselves.

*QCA Principle 2: Seek to understand and meet shareholder needs and expectations*

The Company via the Chair seeks to maintain a regular dialogue with both existing and potential new shareholders in order to communicate the Company’s strategy and progress and to understand the needs and expectations of shareholders.

Beyond the Annual General Meeting, the Chair and, where appropriate, other members of the senior management team or Board will meet with investors and analysts to provide them with updates on the Company’s business and to obtain feedback regarding the market’s expectations of the Company.

The Company’s investor relations activities encompass dialogue with both institutional and private investors. From time to time, the Company attends private investor events, providing an opportunity for those investors to meet with representatives from the Company in a more informal setting.

*QCA Principle 3: Take into account wider stakeholder and social responsibilities and their implications for long-term success*

The Company is aware of its corporate social responsibilities and the need to maintain effective working relationships across a range of stakeholders. These include the Company’s advisors, suppliers and investee companies. The Company’s operations and working methodologies take account of the need to balance the needs of all of these stakeholders while maintaining focus on the Board’s primary responsibility to promote the success of the Company for the benefit of its members as a whole. The Company endeavours to take account of feedback received from stakeholders, and where appropriate, ensures any amendments are consistent with the Company’s longer-term strategy.

The Company takes due account of any impact that its activities may have on the environment and seeks to minimise this impact wherever possible.

## **Corporate Governance Statement (continued)**

*QCA Principle 4: Embed effective risk management, considering both opportunities and threats, throughout the organisation*

The Board is responsible for the systems of risk management and internal control and for reviewing their effectiveness. Internal controls are designed to manage rather than eliminate risk and provide reasonable but not absolute assurance against material misstatement or loss. Through the activities of the Company's Audit, Risk and Compliance Committee, the effectiveness of these internal controls is reviewed annually.

A comprehensive budgeting process is completed once a year and is reviewed and approved by the Board. The Company's results, compared with the budget, are reported to the Board on a monthly basis.

The Company maintains appropriate insurance cover in respect of actions taken against the Directors because of their roles, as well as against material loss or claims against the Company. The insured values and type of cover are comprehensively reviewed on a periodic basis.

The senior management team meets at least quarterly to consider new risks and opportunities presented to the Company, making recommendations to the Board and/or Company Audit, Risk and Compliance Committee as appropriate.

*QCA Principle 5: Maintain the board as a well-functioning, balanced team led by the chair*

The Company's Board currently comprises three Non-Executive Directors and two Executive Directors.

All of the Directors are subject to election by shareholders at the first Annual General Meeting after their appointment to the Board and will continue to seek re-election at least once every three years.

The Board is responsible to the shareholders for the proper management of the Company and intends to meet at least four times a year to set the overall direction and strategy of the Company, to review operational and financial performance and to advise on management appointments. All key operational decisions are subject to Board approval.

Alex Borrelli and Euan Jenkins, both Non-Executive Directors, are considered to be independent. The QCA Code suggests that a board should have at least two independent Non-Executive Directors. The Board considers that the current composition and structure of the Board of Directors is appropriate to maintain effective oversight of the Company's activities for the time being.

Directors receive their fees in the form of a basic cash emolument. The current remuneration structure for the Board's Executive and Non-Executive Directors is deemed to be proportionate.

*QCA Principle 6: Ensure that between them the Directors have the necessary up-to-date experience, skills and capabilities*

The Board considers that the Executive Directors and Non-Executive Directors are of sufficient competence and calibre to add strength and objectivity to its activities and bring considerable experience in the operational and financial development of the Company.

The Directors' biographies are detailed on the Company's website [www.braddaheadltd.com](http://www.braddaheadltd.com).

The Board regularly reviews the composition of the Board to ensure that it has the necessary breadth and depth of skills to support the ongoing development of the Company.

The Executive Chair, in conjunction with the Finance Director, ensures that the Directors' knowledge is kept up to date on key issues and developments pertaining to the Company, its operational environment and to the Directors' responsibilities as members of the Board.

Directors' service contracts or appointment letters make provision for a Director to seek professional advice in furtherance of his or her duties and responsibilities, normally via the Company Secretary.

*QCA Principle 7: Evaluate board performance based on clear and relevant objectives, seeking continuous improvement*

Internal evaluation of the Board, the Committees and individual Directors is undertaken on an annual basis in the form of peer appraisal and discussions to determine their effectiveness and performance as well as the Directors' continued independence.

The results and recommendations that come out of the appraisals for the Directors shall identify the key corporate and financial targets that are relevant to each Director and their personal targets in terms of career development and training. Progress against previous targets is also assessed where relevant.

# Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

## Corporate Governance Statement (continued)

### *QCA Principle 8: Promote a corporate culture that is based on ethical values and behaviours*

The Board seeks to maintain the highest standards of integrity and probity in the conduct of the Group's operations. These values are enshrined in the written policies and working practices adopted by all employees and contractors in the Group. An open culture is encouraged within the Group, with regular communications to staff regarding progress and staff feedback regularly sought. The Executive Management regularly monitors the Group's cultural environment and seeks to address any concerns that may arise, escalating these to Board level as necessary.

The Group is committed to providing a safe environment for its staff and all other parties for which the Group has a legal or moral responsibility in this area. The Group's health and safety policies and procedures are enshrined in the Group's documented quality systems, which encompass all aspects of the Group's day-to-day operations.

### *QCA Principle 9: Maintain governance structures and processes that are fit for purpose and support good decision-making by the board*

#### *The Role of the Board*

The Board is collectively responsible for the long-term success of the organisation. Its principal function is to determine the strategy and policies of the Company within an effective control framework which enables risk to be assessed and managed.

The Board ensures that the necessary financial and human resources are in place for the Company to meet its objectives and that business and management performance is reviewed. Furthermore, the Board ensures that the Company operates within its constitution, relevant legislation and regulation and that proper accounting records and effective systems of business control are established, maintained, documented and audited.

There are at least four formal Board meetings each year. All Board members have the benefit, at the Company's expense, of liability insurance in respect of their responsibilities as Directors and have access to independent legal or other professional advice if required. The Board has a formal schedule of matters which are reserved for its consideration, and it has established three committees to consider specific issues in greater detail, being the Company Audit, Risk and Compliance, Remuneration and Nomination Committees. The Terms of Reference for each of these Committees are published on the Company's website.

#### *The Executive Chair*

The Executive Chair is responsible for leading the Board, ensuring its effectiveness in all aspects of its role, promoting a culture of openness of debate and communicating with the Company's members on behalf of the Board. The Chair sets the direction of the Board and promotes a culture of openness and debate by facilitating the effective contribution of Non-Executive Directors and ensuring constructive relations between Executive and Non-Executive Directors. The Chair also ensures that Directors receive accurate, timely and clear information. In doing so, this fosters a positive corporate governance culture throughout the Company.

#### *Non-Executive Directors*

The Non-Executive Directors are responsible for bringing independent judgement to the discussions held by the Board, using their breadth of experience and understanding of the business. Their key responsibilities are to constructively challenge and contribute to strategic proposals, and to monitor performance, resources, and standards of conduct, compliance and control, whilst providing support to executive management in developing the Company.

#### *Board Committees*

The Board has established an Audit, Risk and Compliance Committee ("ARCC"), and a Remuneration Committee with formally delegated duties and responsibilities.

#### *Company Audit, Risk and Compliance Committee*

The Company Audit, Risk and Compliance Committee (the "ARCC") meets at least two times each year and is chaired by Alex Borrelli. The external auditors attend by invitation. Its role is to be responsible for reviewing the integrity of the financial statements and the balance of information disclosed in the accompanying Directors' Report, to review the effectiveness of internal controls and risk management systems and recommend to the Board (for approval by the members) the appointment or re-appointment of the external auditor. The ARCC reviews and monitors the external auditor's objectivity, competence, effectiveness and independence, ensuring that if it or its associates are invited to undertake non-audit work it will not compromise auditor objectivity and independence.

# Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

## Corporate Governance Statement (continued)

Further information can be found within the Company's Audit, Risk and Compliance Report contained within this Annual Report.

### *Remuneration Committee*

The Remuneration Committee intends to meet at least once a year and comprises of two Non-Executive Directors. It is chaired by Euan Jenkins and is responsible for determining the remuneration of the Executive Directors, and other members of the management. Committee members do not take part in discussions concerning their own remuneration.

Further information can be found within the Remuneration Report contained within this Annual Report.

### *Re-election*

The Company's Rules require that all Directors are submitted for election at the AGM following their first appointment to the Board. Thereafter, all Directors will submit themselves for re-election at least once every three years, irrespective of performance.

### *Board and committee attendance*

The number of formal scheduled Board and committee meetings held and attended by Directors during the year was as follows: -

<i>Name</i>	<i>Board</i>	<i>ARCC</i>	<i>Remuneration</i>
James Mellon	7/7	-	-
Denham Eke	7/7	-	-
Ian Stalker	7/7	2/2	-
Euan Jenkins	7/7	2/2	2/2
Alex Borrelli	7/7	2/2	2/2

*QCA Principle 10: Communicate how the company is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders*

The Company places a high priority on regular communications with its various stakeholders and aims to ensure that all communications concerning the Company's activities are clear, fair and accurate. The Company's website is regularly updated, and users can register to be alerted when announcements or details of presentations and events are posted onto the website.

Notices of General Meetings of the Company can be found here: <https://www.braddaheadltd.com/investors#NewsReleases>

The results of voting on all resolutions in general meetings are posted to the Company's website, including any actions to be taken as a result of resolutions for which votes against have been received from at least 20 per cent of independent shareholders.

### *Approval*

This report was approved by the Board of Directors and signed on its behalf by:

**Denham Eke**

**Finance Director**

30 July 2025

# Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

## Audit, Risk and Compliance Committee Report

The Directors ensure the Company complies with the provisions of the Quoted Companies Alliance (“QCA”) Corporate Governance Code for Small and Mid-Size Quoted Companies (2018) to the extent which is appropriate to its nature and scale of operations.

This report illustrates how the Company complies with those principles in relation to its Audit, Risk and Compliance Committee (the “ARCC”).

### Membership

The members of the ARCC are Ian Stalker (“IS”), Alex Borrelli (“AB”) and Euan Jenkins (“EJ”), with AB and EJ being the independent Non-Executive directors, with AB being the Chair. The composition of the Committee has been reviewed during the year, and the Board is satisfied that the Committee members have the relevant financial experience and the expertise to resource and fulfil its responsibilities effectively, including those relating to risk and controls.

### Meetings

The Committee meets at least two times a year, including the review of the interim and full year results. Other Directors and representatives from the external auditors attend by invitation.

### Duties

The Committee carries out the duties below for the Company, as appropriate:

- Monitors the integrity of the financial statements of the Company, including annual and half-yearly reports, interim management statements, and any other formal announcement relating to financial performance, reviewing significant financial reporting issues and judgements which they contain.
- Reviews and challenges the consistency of the information presented within the financial statements, compliance with stock exchange or other legal requirements, accounting policies and the methods used to account for significant or unusual transactions.
- Keeps under review the effectiveness of the Company’s internal controls and risk management systems.
- Oversee the relationship with the external auditors, PKF Littlejohn LLP, including meetings when considered appropriate to discuss their remit and review the findings and any issues with the annual audit. It will also review their terms of appointment, and plans to meet them once a year independent of management and will consider and make recommendations to the Board, to be put to the Company for approval at the Annual General Meeting, in relation to the appointment, re-appointment and removal of the Company’s external auditor. There are no contractual restrictions in place in respect of the auditor choice.
- The Committee is governed by a Terms of Reference and a copy of this is available on the Company’s website.

### 2025 Annual Report

During the year, ARCC confirms that it has received sufficient, reliable and timely information from management and the external auditors to enable it to fulfil its responsibilities.

The Committee has satisfied itself that there are no relationships between the auditor and the Company which could adversely affect the auditor’s independence and objectivity.

All internal control and risk issues that have been brought to the attention of the ARCC by the external auditors have been considered and the Committee confirms that it is satisfied that management has addressed the issues or has plans to do so.

## **Bradda Head Lithium Limited**

*Annual report and consolidated financial statements for the year ended 28 February 2025*

### **Audit, Risk and Compliance Committee Report (continued)**

The Company has a number of policies and procedures in place as part of its internal controls, and these are subject to continuous review and as a minimum are reviewed by ARCC on an annual basis.

- ARCC has reviewed and discussed together with management and the external auditor the Company's financial statements for the year ended 28 February 2025 and reports from the external auditor on the planning for and outcome of their reviews and audit. The key accounting issues and judgements considered relating to the Company's financial statements and disclosures were as follows:
  - Carrying amount of capitalised deferred mining and exploration costs, and capitalised licences and permits – US\$ 15,421,152; and
  - Going concern – ARCC reviewed the going concern position of the Company, taking into account the 12-month cash flow forecasts, which are prepared to December 2026. ARCC is satisfied that preparing the financial statements on a going concern basis is appropriate. Disclosures are included in note 2.

**Alex Borrelli**

**Chair of Audit, Risk and Compliance Committee**

30 July 2025

# **Bradda Head Lithium Limited**

*Annual report and consolidated financial statements for the year ended 28 February 2025*

## **Report of the Remuneration Committee**

As a BVI registered company there is no requirement to produce a Directors' Remuneration Report. However, the Board follows best practice and therefore has prepared such a report.

The Directors have agreed to comply with the provisions of the Quoted Companies Alliance ("QCA") Corporate Governance Code for Small and Mid-Size Quoted Companies (2018) to the extent which is appropriate to its nature and scale of operations.

This report illustrates how the Company complies with those principles in relation to Directors' remuneration.

### *The level and components of employee remuneration*

The Remuneration Policy reflects the Company's business strategy and objectives as well as sustained and long-term value creation for shareholders. In addition, the policy aims to be fair and provide equality of opportunity, ensuring that:

- the Company is able to attract, develop and retain high-performing and motivated employees in the competitive local and wider markets;
- employees are offered a competitive remuneration package to encourage enhanced performance and are, in a fair and responsible manner, rewarded for their individual contribution to the success of the Company;
- it reflects the Company's culture and values; and
- there is full transparency of the Remuneration Policy.

In line with the Board's approach, which reflects that adopted within other comparable organisations, the Remuneration Policy provides for the reward of the employees through salary and other benefits.

### *Executive Director's Emoluments*

The remuneration for the Executive Directors reflects their responsibilities. It comprises basic salary, eligibility to participate in an annual bonus scheme when this is considered appropriate, and share option incentives.

Annual bonus scheme payments are not pensionable and are not contracted.

As with staff generally, whose salaries are subject to annual reviews, the basic salary payable to the Executive Directors are reviewed each year with reference to jobs carrying similar responsibilities in comparable organisations, market conditions generally and local employment competition in view of the Group's geographical position.

The Committee believes that share ownership by executives strengthens the link between their personal interests and those of shareholders. Options are granted to executives periodically at the discretion of the Remuneration Committee. The grant of share options is not subject to fixed performance criteria. This is deemed to be appropriate as it allows the Committee to consider the performance of the Group and the contribution of the individual executives and, as with annual bonus payments, illustrates the relative importance placed on performance-related remuneration.

The Group does not intend to contribute to the personal pension plans of Directors in the forthcoming year.

### *Executive Directors' Contractual Terms*

The service contract of the Executive Directors provides for a notice period of six months.

### *Non-Executive Directors' Remuneration*

Non-Executive Directors do not receive any benefits other than their fees and travelling expenses for which they are reimbursed. The level of fees payable to Non-Executive Directors is assessed using benchmarks from a group of comparable organisations.

## Bradda Head Lithium Limited

Annual report and consolidated financial statements for the year ended 28 February 2025

### Report of the Remuneration Committee (continued)

#### *The Procedure for Determining Remuneration*

The Remuneration Committee, comprising two Non-Executive Directors, is responsible for setting the remuneration of the Executive Directors. Committee members do not take part in discussions concerning their own remuneration. The basic Non-Executive Director fee is set by the Chair. The Chair of the Committee reports at the Board meeting following a Committee meeting.

It is the view of the Committee that Directors' remuneration awarded across the Company for the year has been in accordance with the Company's stated Remuneration Policy and, on behalf of the Committee I recommend that you endorse this report. An analysis of Directors' emoluments is as follows:

#### Directors' Emoluments

	Fees US\$	Share based payment remuneration US\$	2025 Total US\$	2024 Total US\$
<b>Executive - salary</b>				
Denham Eke	68,320	-	68,320	64,427
Charles FitzRoy (to 29 August 2023)	-	-	-	131,358
<b>Non-Executive - fees</b>				
Jim Mellon	51,840	-	51,840	51,520
Ian Stalker	165,411	-	165,411	187,970
Alex Borrelli	51,840	-	51,840	51,520
Euan Jenkins	51,840	-	51,840	51,520
<b>Aggregate emoluments</b>	<b>389,251</b>	<b>-</b>	<b>389,251</b>	<b>538,315</b>

#### *Approval*

30 July 2025

## **Bradda Head Lithium Limited**

*Annual report and consolidated financial statements for the year ended 28 February 2025*

### **Statement of Directors' Responsibilities**

The Directors are responsible for preparing the Directors' Report and the consolidated financial statements in accordance with applicable law.

The Directors are required to prepare financial statements for each financial year. They have elected to prepare the financial statements in accordance with International Financial Reporting Standards, and applicable law.

The Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and of its profit or loss for that period. In preparing the consolidated financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable International Financial Reporting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Group or the Company or to cease operations or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BRADDA HEAD LITHIUM LIMITED

## Opinion

We have audited the financial statements of Bradda Head Lithium Limited (the 'Group') for the year ended 28 February 2025 which comprise the Consolidated Statement of Comprehensive Income, the Consolidated Statement of Financial Position, the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs).

In our opinion, the financial statements:

- give a true and fair view of the state of the Group's affairs as at 28 February 2025 and of its profit for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRS").

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Group's ability to continue to adopt the going concern basis of accounting included:

- Reviewing the cash flow forecasts prepared by management for the period up to 31 December 2026 for reasonableness and agreeing to corroborating evidence;
- Providing challenge on key assumptions and inputs to the forecasts, including an assessment of the commitment received from a major shareholder to cover all liabilities as and when they fall due during the going concern period;
- Assessing and evaluating the liquidity of existing assets as of the year end;
- Sensitising the cash flows forecasts for plausible scenarios;
- Reviewing post-year end Regulatory News Service (RNS) announcements impacting going concern; and
- Assessing the adequacy of going concern disclosures within the Annual Report and Consolidated Financial Statements.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

## Our application of materiality

We apply the concept of materiality in both planning and performing the audit and evaluating the effect of misstatements. For the purposes of determining whether the group financial statements are free from material misstatements, we define materiality as the magnitude of misstatement that makes it probable that the economic decisions of a reasonably knowledgeable person, relying on the group financial statements, would be changed or influenced. We also determine a level of performance materiality which we use to assess the extent of testing needed to reduce to an appropriate level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality for the group financial statements as a whole. When establishing our overall audit strategy, we determined a magnitude of uncorrected misstatements that we judged would be material for the group financial statements as a whole.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BRADDA HEAD LITHIUM LIMITED (continued)

The materiality applied to the Group consolidated financial statements was \$170,000 (2024: \$159,000), based on 1% of gross assets, as we consider gross assets to be the most relevant performance indicator for the exploration Group and their development is the principal activity.

A benchmark of 65% for performance materiality during our audit of the Group was applied, being \$110,000 (2024: \$103,000), as we believe that this would provide sufficient coverage of significant and residual risks.

We agreed with the audit committee that we would report to them all audit differences identified during the course of our audit in excess of \$8,500 (2024: \$8,000). We also agreed to report any other audit misstatements below that threshold that we believe warranted reporting on qualitative grounds.

## Our approach to the audit

Our audit is risk based and is designed to focus our efforts on the areas at greatest risk of material misstatement, aspects subject to significant management judgement as well as greatest complexity, risk and size.

In designing our audit, we determined materiality and assessed the risk of material misstatement in the consolidated financial statements. In particular, we looked at areas involving significant accounting estimates and judgements by management, such as the recoverability of exploration and evaluation assets which is inherently uncertain.

We also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

The audit of the parent company and components was performed in London by PKF Littlejohn LLP, using a team with specific experience in auditing publicly listed entities.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our scope addressed this matter
Capitalisation and assessment of impairment of deferred mining and exploration costs and exploration permits and licenses (refer note 2 'Critical accounting estimates and judgements', note 8 'Deferred mining and exploration costs' and note 9 'Exploration permits and licenses').	
<p>The group has reported deferred mining and exploration costs and exploration permits and licenses of \$12.3m and \$3.1m respectively. There is a risk that the carrying values of these non-current assets are not fully recoverable and should be impaired in line with IFRS 6.</p> <p>This risk also relates to the appropriate capitalisation of exploration costs in accordance with IFRS 6.</p> <p>The group capitalises all expenditure incurred directly relating to exploratory activities as deferred mining or exploration costs once a licence or permit has been obtained for exploratory activities.</p> <p>The estimated recoverable amount of these assets requires judgement in determining whether future</p>	<p>Our audit work in this area included:</p> <ul style="list-style-type: none"> <li>Substantive testing of a sample of additions to assess their eligibility for capitalisation under IFRS 6 by corroborating to the original source documentation;</li> <li>Confirming the group has good title to the permits and claims;</li> <li>Ensuring, where applicable, that any specific requirements contained within the permits and claims have been met, to include minimum expenditure clauses;</li> </ul>

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BRADDA HEAD LITHIUM LIMITED (continued)

<p>economic benefits will arise either from future exploitation or sale. The costs are capitalized to the extent that they do not exceed the estimated economically recoverable amount from mineral interests.</p> <p>The costs relate to projects which are at an early stage of exploration and there is no certainty as to whether commercially viable quantities of mineral resources will be discovered, whether the group will continue its exploration activities in each of its licence areas or whether the group will have sufficient funding to undertake the required exploration activities.</p> <p>Based upon the significant carrying value and the level of management judgement required in the assessment of impairment, the risk is considered to be a key audit matter.</p>	<ul style="list-style-type: none"> <li>• Making enquiries of management regarding future plans for each project including obtaining cashflow projections;</li> <li>• Considering whether there are indications of impairment on a project-by-project basis in accordance with IFRS 6 criteria;</li> <li>• Reviewing management's impairment paper in respect of the carrying value of assets and providing challenge, corroborating any key assumptions used;</li> <li>• Evaluating the independence and competence of the experts engaged by management to calculate the mineral resource estimates; and</li> <li>• Ensuring appropriate disclosures are included within the financial statements.</li> </ul>
---	--

## Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BRADDA HEAD LITHIUM LIMITED (continued)**

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- We obtained an understanding of the group and the sector in which it operates to identify laws and regulations that could reasonably be expected to have a direct effect on the financial statements. We obtained our understanding in this regard through discussions with management, as well as the application of cumulative audit knowledge and experience of the sector.
- We determined the principal laws and regulations relevant to the group in this regard to be those arising from AIM rules, the QCA Corporate Governance Code, the operating terms set out in the mining licenses, as well as local laws and regulations.
- We designed our audit procedures to ensure the audit team considered whether there were any indications of non-compliance by the group with those laws and regulations. These procedures included, but were not limited to:
  - enquiries of management;
  - review of minutes of board meetings;
  - review of stock exchange announcements; and
  - review of legal and professional fees to understand the nature of the costs and the existence of any non-compliance with laws and regulations.
- We also identified the risks of material misstatement of the group financial statements due to fraud at the group level. We considered, in addition to the non-rebuttable presumption of a risk of fraud arising from management override of controls, that the potential for management bias was identified in relation to the impairment assessment of non-current exploration and evaluation assets. We addressed this by challenging the assumptions and judgements made by management when evaluating any indicators of impairment, as outlined in the Key audit matters section.
- We addressed the risk of fraud arising from management override of controls by performing audit procedures which included, but were not limited to: the testing of journals; reviewing accounting estimates for evidence of bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

### **Use of our report**

This report is made solely to the Group's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Group's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone, other than the Group and the Group's members as a body, for our audit work, for this report, or for the opinions we have formed.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 1 Reporting Entity

Bradda Head Lithium Limited (the “Company”) is a company domiciled in the British Virgin Islands. The address of the Company’s registered office is Craigmuir Chambers, Road Town, Tortola, British Virgin Islands. The Company and its subsidiaries together are referred to as the “Group”.

Bradda Head Lithium Limited is a lithium exploration Group focused on developing its projects in the USA.

### 2 Basis of preparation

#### *(a) Statement of compliance*

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs). These financial statements have been prepared under the historical cost convention, except for Investments at Fair Value Through Profit and Loss, which are measured at fair value.

#### *(b) Basis of measurement*

##### *Functional and Presentation Currency*

The consolidated financial statements of the Group are presented in US Dollars (US\$), which is also the functional currency of all entities in the Group. All financial information presented in US Dollars has been rounded to the nearest dollar.

##### *Critical accounting estimates and judgements*

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. Significant estimates and assumptions include those related to recoverability of mineral properties and determination as to whether costs are expensed or deferred.

The Company is in the process of exploring its mineral properties and has not yet determined whether the properties contain economically recoverable mineral reserves. Including whether a commercially feasible means of extraction from clay deposits is established. The recoverability of carrying amounts for mineral properties is dependent upon the discovery of economically recoverable mineral reserves, the ability of the Company to obtain the financing necessary to complete exploration and development, and the success of future development of the properties. It is also dependent on all claims being properly legally established.

Judgement is required in applying the Company’s accounting policy for exploration and evaluation assets in determining whether it is likely that costs incurred will be recovered through successful exploration and development or sale of the asset under review when assessing impairment. Furthermore, the assessment as to whether economically recoverable reserves exist is itself an estimation process. Estimates and assumptions made may change if new information becomes available. If information becomes available suggesting that the recovery of expenditures is unlikely, the amount capitalised is written off to profit and loss in the period when the new information becomes available. In situations where indicators of impairment are present for the Company’s exploration and evaluation assets, estimates of recoverable amount must be determined as the higher of the estimated value in use or the estimated fair value less costs to sell. Refer to notes 3, 8 and 9.

##### *Impact of Ukraine conflict on the financial statements*

The Directors have considered the ongoing conflict in Ukraine, and its impact on the Group’s operations and information included in these financial statements. The Group’s operations are largely based in the USA, which currently has seen no direct impact due to the conflict. The Directors are aware of increases in global oil and gas prices, which could have an impact on fuel and electricity prices in the USA, and knock-on price impacts on the Group’s USA based suppliers and contractors. Management is in regular communication with suppliers and contractors, and no significant impact has been seen relating to this.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 2 Basis of preparation (continued)

#### *Impact of new US Government ("Trump Administration")*

The commencement of the Trump Administration's term in the USA resulted in some changes to the "New Green Deal" and "Inflation Reduction Act" also known as the "IRA". The Trump Administration has signed several executive orders intending to simplify and accelerate the process of mining commencement for critical mineral projects, with lithium being included as a critical mineral. The intention is to reduce the USA reliance on foreign sources of these critical minerals. The Company views these changes as a net positive on the lithium market, with any significant impacts being seen in the months and years to come.

#### *Going concern*

The Group is in a net asset position of US\$ 16,658,327 as at 28 February 2025 (29 February 2024: US\$ 15,661,704). Given the early exploration stage of the Group's projects, the Group is not yet generating any revenue and is incurring expenditure in progressing its exploration work. The Group reported a profit attributable to equity shareholders of US\$ 1,100,162 for the year ended 28 February 2025 (29 February 2024: loss of US\$ 1,503,858). As at 28 February 2025, the Group had cash and deposit balances of US\$ 1,086,596 (29 February 2024: US\$ 1,664,662).

Further expenditure will be necessary in order for the Group to progress the projects to a stage where their feasibility can be assessed and where they may potentially be able to ultimately generate revenue, if economically viable. Continued operations of the Group and further progressing its exploration and evaluation activities is dependent on the Company's ability to obtain additional financing and generate profitable operations in the future.

The directors have performed a going concern assessment which indicates that, taking account of reasonably possible downsides, it is probable that the Group will have sufficient funds, through funding from its major shareholder and further equity fund raises, to meet its liabilities as they fall due for a period of twelve months from the date of signing i.e. going concern assessment period. If necessary, adjustments can be made to defer the Group's discretionary exploration expenditure, based on results of its exploration activities and cash resource levels whilst maintaining good title to its licenses and permits, with the level of exploration activities and related expenditure being full controllable by the Company.

Based on forecasts prepared by Directors, they believe it remains appropriate to prepare the financial statements on a going concern basis, taking into consideration the level of cash held by the Group. The Directors are confident that further funds can be raised and have a reasonable expectation that the Group will have adequate resources for its continuing existence and projected activities for the foreseeable future, and for these reasons, continue to adopt the going concern basis in preparing the financial statements for the year ended 28 February 2025.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements and have been applied consistently by Group entities for the year ended 28 February 2025.

#### **Basis of consolidation**

The consolidated financial statements for the year ended 28 February 2025 incorporate the financial information of the Company and entities controlled by the Company (its “subsidiaries”). The results of subsidiaries are included in the consolidated statement of comprehensive income from the date on which control is obtained, and up to the date control is lost.

#### *Business combination*

Acquisitions of subsidiaries and businesses are accounted for using the purchase method. The cost of acquisition is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree plus any costs directly attributable to the business combination.

The acquiree’s identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 are recognised at their fair value at the acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 ‘Non-Current Assets Held for Sale and Discontinued Operations’, which are recognised and measured at fair value less costs to sell.

#### *Non-controlling interest*

Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the Group’s equity therein. The interests of non-controlling shareholders may be initially measured at fair value or at the non-controlling interests’ proportionate share of the acquiree’s identifiable net assets which are generally at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is adjusted for the non-controlling interests’ share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

#### *Transactions eliminated on consolidation*

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group’s interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### **Foreign currency transactions**

Transactions in foreign currencies are translated into functional currency based on the exchange rates prevailing at the transaction dates. Foreign currency denominated monetary assets and liabilities are translated into functional currency at the exchange rate prevailing at the reporting date. Gains or losses arising from foreign currency transactions are recognised in the consolidated statement of comprehensive income.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined or if measured at historical cost are translated using the exchange rate at the date of transaction.

#### **Consolidation of foreign operations**

The assets and liabilities of foreign operations are translated to US Dollars at exchange rates at the reporting date while income and expenses are translated at exchange rates at date of transactions although if not practically available, the average rate for the period is used.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 3 Significant accounting policies (continued)

#### Deferred mine exploration costs

The Group deems that all expenditure incurred in the country of the project, directly relating to exploratory activities, in addition to the acquisition costs of an existing, granted exploration permit or license, is capitalisable as deferred mine costs once a license or permit has been obtained for exploratory activities. Pre-license costs are expensed in the period in which they are incurred. License costs paid in connection with a right to explore in an existing exploration area are capitalised.

Exploration expenditures relate to the initial search for mineral deposits with economic potential as well as expenditures incurred for the purposes of obtaining more information about existing mineral deposits. Exploration expenditures typically comprise costs that are directly attributable to:

- researching and analysing existing exploration data;
- conducting geological studies;
- exploratory drilling and sampling for the purposes of obtaining core samples and the related metallurgical assay of these cores; and
- drilling to determine the volume and grade of deposits in an area known to contain mineral resources or for the purposes of converting mineral resources into proven and probable reserves.

The assessment of probability is based on the following factors: results from previous drill programmes; results from a geological study; results from a mine scoping study confirming economic viability of the resource; and preliminary estimates of the volume and grade of the deposit, and the net cash flows expected to be generated from its development. The application of the Group's accounting policy for exploration and evaluation expenditure requires judgment in determining whether future economic benefits will arise either from future exploitation, or sale, or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. Deferred mine exploration cost are capitalised to the extent that they do not exceed the estimated economically recoverable amount from mineral interests. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established.

Estimates and assumptions made may change if new information becomes available. If after expenditure is capitalised, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalised is written off in the consolidated statement of comprehensive income in the period when the new information becomes available. Management reviews the carrying values of its deferred mine exploration costs at least annually and whenever events or changes in circumstances indicate that their carrying values may exceed their estimated net recoverable amounts. An impairment loss is recognised when the carrying value of those assets is not recoverable and exceeds their fair value.

These costs are carried forward provided that at least one of the following conditions is met:

- the period for which the entity has the right to explore in the specific area has not expired during the period or will expire in the near future, and is expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is either budgeted or planned;
- such costs are expected to be recouped in full through successful development and exploration of the area of interest or alternatively, by its sale; or
- exploration and evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in relation to the area are continuing or planned for the future.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 3 Significant accounting policies (continued)

#### **Deferred mine exploration costs (continued)**

Upon reaching commercial production, these capitalised costs will be transferred from development properties to producing properties on the Consolidated Statement of Financial Position and will be amortised using the unit-of-production method over the estimated period of economically recoverable reserves.

#### **Exploration permits**

Exploration permits acquired by way of an asset acquisition or business combination are recognised if the asset is separable or arises from contractual or legal rights. On acquisition of a mineral property in the exploration stage, an estimate is prepared of the fair value attributable to the exploration potential, including mineral resources, if any, of that property. The fair value of the exploration permits is recorded as an intangible asset (acquired exploration permits) as at the date of acquisition. When an exploration stage property moves into development, any acquired exploration intangible asset balance attributable to that property is transferred to non-depreciable mining interests within property, plant and equipment. Impairment testing and the reversal of impairments are conducted in accordance with the accounting policy adopted for deferred mine exploration costs.

#### **Mineral property expenses**

Mineral property expenses are costs incurred that do not qualify for capitalisation and are therefore expensed to the profit or loss as incurred. These include payments for costs incurred prior to obtaining licenses.

#### **Impairment of tangible and intangible assets excluding goodwill**

At each reporting date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the CGU to which the asset belongs. An intangible asset with an indefinite useful life is tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (CGU) is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately. Where an impairment loss subsequently reverses, the carrying amount of the asset (CGU) is increased to the revised estimate of its recoverable amount but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (CGU) in prior years. A reversal of an impairment loss is recognised as income immediately.

#### **Financial instruments**

##### *Measurement*

Financial instruments are initially measured at fair value, which includes transaction costs. Subsequent to initial recognition these instruments are measured as set out below:

##### *Trade and other receivables*

Trade and other receivables are stated at amortised costs using the effective interest method less impairment losses.

##### *Cash and cash equivalents*

Cash and cash equivalents are measured at amortised costs and are due on demand.

##### *Financial liabilities*

Non-derivative financial liabilities are recognised at amortised costs using the effective interest method.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 3 Significant accounting policies (continued)

#### Financial instruments (continued)

##### *Fair value of financial instruments*

The Company determines fair values using other valuation techniques in compliance with IFRS9: Financial Instruments, IFRS13: Fair Value Measurement, and based on the International Private Equity and Venture Capital Valuation Guidelines ("IPEV").

For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgement depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using; quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data; or
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Various valuation techniques may be applied in determining the fair value of investments held as Level 3 in the fair value hierarchy. The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

#### Finance income and finance costs

Finance income comprises interest income on funds invested. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, and losses on hedging instruments that are recognised in profit or loss. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

#### Share premium

Ordinary shares are classified as equity. The ordinary shares of the Company have a nil par value. As such all proceeds received for the issue of shares has been credited to share premium. Proceeds from the exercise of stock options or conversion of share purchase warrants are recorded in share premium at the amount received on exercise or conversion. Commissions paid to underwriters or agents and other related share issue costs, such as legal, accounting and printing, are charged to share premium.

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 3 Significant accounting policies (continued)

#### Financial instruments (continued)

##### Share based payments

Equity-settled share-based payments are measured at fair value at the date of grant. The fair value is calculated using the Black-Scholes option pricing model (where no fair value of the service or assets provided is evident). The fair value determined at the grant date of the equity settled share-based payment is expensed based on the vesting period and based on the Company's estimate of the number of shares that will eventually vest.

On determining fair values, terms and conditions attaching to the instruments are taken into account. Management is also required to make certain assumptions and estimates regarding such items as the life of instruments, volatility and forfeiture rates. Changes in the assumptions used to estimate fair value could result in materially different results.

##### Segmental reporting

The Directors are of the opinion that the Company is engaged in a single segment of business, being exploration for lithium in the USA. Information presented to the Board of Directors for the purpose of decision making is based on this single segment.

##### Property and equipment

Property and equipment assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation of fixed assets commences when the asset is available for use. The Company assesses at each reporting date whether tangible fixed assets are impaired. Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. The estimated useful lives are as follows:

Owned vehicles and other equipment– 3 years

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the Company expects to consume an asset's future economic benefits.

##### Gain on sale of mining interest

The Group may monetise its future revenue streams by entering into royalty agreements with investment companies for a given percentage royalty. This transaction represents a disposal of a portion of the relevant mineral interest, which is subject to the royalty, which is represented by deferred mine exploration costs and exploration permits and licences in the financial statements.

Where the consideration in exchange for the sale of the interest is variable, the IFRS 15 variable consideration guidance is applied, and the consideration is included in the transaction price only to the extent that it is highly probable that a significant reversal of revenue will not occur ('the constraint').

A gain/loss on the sale is recognised in profit or loss.

Royalty payments due, under the royalty agreements, are recognised as a reduction of revenue as amounts become due and payable.

# Bradda Head Lithium Limited

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 3 Significant accounting policies (continued)

New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are not yet effective for the current period ended, and have not been applied in preparing these consolidated historical financial statements:

<i>New/revised International Accounting Standards / International Financial Reporting Standards ("IAS/IFRS")</i>	<i>IFRS Effective date (accounting periods commencing on or after)</i>
Non-current liabilities with Covenants	1 Jan 2024
Lack of Exchangeability	1 Jan 2025
Amendments to the Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7	1 Jan 2026
IFRS 18 Presentation and Disclosure in Financial Statements	1 Jan 2027

The Directors do not expect the adoption of the standards and interpretations to have a material impact on the Company's financial statements in the period of initial application.

### 4 General and administrative expenses

The Group's general and administrative expenses include the following:

	<b>Year ended 28 February 2025</b>	Year ended 29 February 2024
	<b>US\$</b>	<b>US\$</b>
Auditors' fees	<b>78,400</b>	55,640
Directors and management fees and salaries	<b>443,468</b>	569,599
Legal and accounting	<b>50,711</b>	335,677
Contractor costs	<b>379,606</b>	1,566,803
Professional and marketing costs	<b>302,587</b>	690,897
Other administrative costs	<b>891,876</b>	987,281
<b>Total</b>	<b>2,146,648</b>	4,205,897

# Bradda Head Lithium Limited

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 5 Gain on sale

On 21 December 2021, the Company completed a royalty agreement with the Lithium Royalty Corporation ("LRC"). Key terms of the royalty agreement are:

- LRC has been granted a 2% gross overriding royalty (GOR) over Bradda Head's sedimentary lithium claims in Arizona (Wikieup project and Basin project) leaving the Company's pegmatite and brine projects unencumbered;
- LRC has paid to the Company upon closing the sum of US\$2.5 million for granting of the Royalty;
- LRC has paid to the Company an additional US\$2.5 million upon the Company publicly reporting a 1 million tonne lithium carbonate equivalent (LCE) Mineral Resource with a minimum lithium grade of 800 parts per million (ppm);
- LRC will pay to the Company an additional US\$3 million upon the Company publicly reporting a 2.5 million tonne LCE Mineral Resource with a minimum lithium grade of 800ppm.

In addition, LRC has also subscribed for US\$2 million of new ordinary shares (along with US\$0.5 million via a further subscription from a LRC director) alongside the royalty closing. See note 14 for details.

During the year, the Company hit the next milestone of over 2.5 million tonne lithium carbonate equivalent (LCE) Mineral Resource with a minimum lithium grade of 800 parts per million (ppm), thereby triggering the final royalty payment from LRC. This has been recognised as a gain on sale in the consolidated statement of comprehensive income.

#### Reconciliation of gain on sale

	Year ended 28 February 2025 US\$	Year ended 29 February 2024 US\$
Proceeds received from royalty receipt	3,000,000	2,500,000
Less: Deferred mine exploration costs disposal (note 8)	(55,758)	(105,273)
Less: Exploration permits and licences disposal (note 9)	(250)	(24,600)
	<u>2,943,992</u>	<u>2,370,127</u>

### 6 Receipt of settlement funds

On 20 May 2024, the Company reached a settlement regarding the fraudulent payment first notified on 29 March 2022 and subsequently disclosed in the audited financial statements. Bradda Head signed a settlement agreement pursuant to which it was partially reimbursed for the fraudulent funds transfer. The partial settlement was consistent with Company's expectations at the time of initiating enforcement proceedings with gross recovery of approximately 40% of total misappropriated funds. The settlement agreement provides for no admission of liability by either party involved and the full commercial terms of the settlement are subject to strict confidentiality obligations on both parties.

# Bradda Head Lithium Limited

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 7 Taxation

#### Income tax

The British Virgin Islands under the International Business Companies Act 2004 imposes no corporate taxes or capital gains taxes.

Zenolith USA LLC, Gray Wash LLC and Verde Grande LLC are Delaware (USA) limited liability companies that have elected to be taxed as standard corporations. To date, these companies have been loss making and therefore no corporation tax is applicable.

The maximum deferred tax asset that could be recognised at year end is approximately US\$ 1,062,243 (2024: US\$ 683,943). The Group has not recognised any asset as it is not reasonably known whether the Group will recover such deferred tax assets.

### 8 Deferred mine exploration costs

The schedule below details the current projects of the Group and the related exploration costs capitalised:

	Total US\$
<b>Cost and net book value</b>	
At 28 February 2023	7,461,851
Capitalised during the year	3,668,845
Disposal under royalty agreement *	(105,273)
At 29 February 2024	<b>11,025,423</b>
Capitalised during the year	<b>1,361,861</b>
Disposal under royalty agreement *	<b>(55,758)</b>
At 28 February 2025	<b>12,331,526</b>
<b>Cost and net book value</b>	
<b>At 28 February 2025</b>	<b>12,331,526</b>
At 29 February 2024	11,025,423

\* In terms of the LRC royalty agreement, the Company has sold a 2% royalty on future sales from its lithium clay assets. The Company has effectively sold 2% of its capitalised deferred mine exploration costs to date, with this adjustment being recorded to reflect this. See note 5 and 14.

All the deferred mining and exploration expenditure has been incurred by Zenolith USA LLC and San Domingo LLC, both subsidiaries of the Group. See note 9.

Deferred mine exploration costs ("DMEC") represent intangible assets. Refer to note 8 for details on exploration permits and licences held.

The recoverability of the carrying amounts of exploration and evaluation assets is dependent on the successful development and commercial exploitation or sale of the respective area of interest, as well as maintaining the assets in good standing. The Group assessed the DMEC relating to areas for which licenses and permits are held for impairment as at 28 February 2025.

The Board reviewed the projects held and concluded that no facts and circumstances have been identified which suggest the recoverable amount of these assets would not exceed the carrying amount and, as such, no impairment was recognised.

### 9 Exploration permits and licences

The schedule below details the current projects of the Group and the related exploration permit and licence costs capitalised:

	Total US\$
<b>Cost and net book value</b>	
At 28 February 2023	2,112,415
Capitalised during the year	693,920
Disposal under royalty agreement *	(24,600)
At 29 February 2024	2,781,735
Capitalised during the year	308,141
Disposal under royalty agreement *	(250)
At 28 February 2025	3,089,626
<b>Cost and net book value</b>	
<b>At 28 February 2025</b>	<b>3,089,626</b>
At 29 February 2024	2,781,735

\* In terms of the LRC royalty agreement, the Company has sold a 2% royalty on future sales from its lithium clay assets. The Company has effectively sold 2% of its capitalised deferred mine exploration costs to date, with this adjustment being recorded to reflect this. See note 5.

The licences and permits are held through indirect subsidiaries of the Company. See note 10.

The Group assessed the carrying amount of the licences and permits held for impairment as at 28 February 2025. The Board reviewed the projects held and concluded that no facts and circumstances have been identified which suggest the recoverable amount of these assets would not exceed the carrying amount and, as such, no impairment was recognised (29 February 2024: impairment of Nil).

#### USA

The USA exploration permits and licences are held by Zenolith (USA) LLC ("Zenolith"), San Domingo LLC ("San Domingo"), Gray Wash LLC and Verde Grande LLC, subsidiaries of Bradda Head (see note 9). Zenolith holds licences and permits over land in the states of Nevada and Arizona, USA, which provide Zenolith with exclusive rights to explore for lithium. Gray Wash and Verde Grande hold licences over land in the state of Arizona.

Carrying amount	Motor vehicle US\$	Other equipment US\$	Total US\$
As at 28 February 2025	3,342	20,833	24,175
As at 29 February 2024	41,472	37,500	78,972

### 14 Investment at fair value through profit or loss

On 1 July 2011, the Company acquired, by way of private placement, a strategic investment in Crazy Horse Resources Inc. (which changed its name to Rockwealth Resources Inc ("RWR"), a copper and gold company traded on the TSX Venture Exchange, which owns the Taysan Project, an advanced copper gold porphyry deposit located 100 km south of Manila in the Philippines. On 6 December 2021, RWR changed its name to Strathmore Plus Energy Corp. On 22 September 2022, Strathmore Plus Energy Corp changed its name to Strathmore Plus Uranium Corp and its TSX-V ticker to SUU.

As at 28 February 2025, the Company holds 249,688 shares in SUU (2024: 249,688 shares).

This investment is classified as a financial asset at fair value through profit or loss. For valuation purposes, it was valued using the closing bid price as at the reporting period.

	28 February 2025	29 February 2024
Total number of shares held	249,688	249,688
	US\$	US\$
Market value of investment at closing bid price	22,472	67,191
Total cost	(5,861,409)	(5,861,409)
Unrealised loss on investment	(5,838,937)	(5,794,218)

In line with IFRS13: Fair Value Measurement, and based on the International Private Equity and Venture Capital Valuation Guidelines ("IPEV"), the investment held is considered to be level 2 in the fair value hierarchy, due to there being a lack of an active market for the traded shares.

The unrealised loss on the investment in SUU charged to the Consolidated Statement of Comprehensive Income and movement in investment fair value is as follows:

	US\$
Balance at 29 February 2024	67,191
Change in fair value	(44,719)
Balance at 28 February 2025	22,472

### 15 Share premium

#### Authorised

The Company is authorised to issue an unlimited number of nil par value shares of a single class.

	Shares	Share capital US\$	Share premium US\$
Issued ordinary shares of US\$0.00 each			
At 29 February 2024 and 28 February 2025	390,609,439	-	30,616,373

# Bradda Head Lithium Limited

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 16 Equity settled share based payments

The cost of equity settled transactions with certain Directors of the Company and other participants ("Participants") is measured by reference to the fair value at the date on which they are granted. The fair value is determined based on the Black-Scholes option pricing model.

**Notes**

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

**16 Equity settled share based payments (continued)**

The amount expensed in the income statement has been calculated by reference to the fair value at the grant date of the equity instrument and the estimated number of equity instruments to vest after the vesting period.

	<b>28 February 2025</b>	<b>29 February 2024</b>
	<b>US\$</b>	<b>US\$</b>
Share based payments reverse charge/(charge)	<b>103,539</b>	<b>(180,622)</b>

No new options were issued during the current year.

Bradda Head Lithium Limited

Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

17 Warrants

The cost of equity warrants granted during the period are measured by reference to the fair value at the date on which they are granted. The fair value is determined based on the Black-Scholes option pricing model.

During year ended 28 February 2025, no new ordinary share warrants were awarded (29 February 2024: Nil).

The total number of warrants in issue as at the period end is set out below.

Recipient	Grant Date	Term in years	Exercise Price	Warrants at 1 March 2024	Number of Warrants Issued	Number of Warrants Lapsed/ cancelled/expired	Number of Warrants Exercised	Number of Warrants at 28 February 2025	Fair value
									US\$
Warrants									
Shareholder warrants	April 2022	2	£0.2100	73,195,560	-	(73,195,560)	-	-	-
				73,195,560	-	(73,195,560)	-	-	-

The fair value applied to the shareholder warrants has been classified as a financial liability. At the date of grant the fair value of shareholder warrants of US\$ 4,748,671 was deducted from the gross proceeds raised against share premium. During the year, the outstanding shareholder warrants expired in full. As at yearend, there were no shareholder warrants in issue.

# Bradda Head Lithium Limited

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 18 Financial instruments

#### Financial risk management

The Company has risk management policies that systematically review the risks that could prevent the Company from achieving its objectives. These policies are intended to manage risks identified in such a way that opportunities to deliver the Company's objectives are achieved. The Company's risk management takes place in the context of day-to-day operations and normal business processes such as strategic planning and business planning. Management has identified each risk and is responsible for coordinating and continuously improving risk strategies, processes and measures in accordance with the Company's established business objectives.

The Company's principal financial instruments consist of cash, receivables and payables arising from its operations and activities. The main risks arising from the Company's financial instruments and the policies for managing each of these risks are summarised below.

#### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is managed by the Company by means of cash flow planning to ensure that future cash requirements are anticipated. All liabilities are due within one month and all cash maintained in call accounts. To date the Company has relied upon equity funding to finance operations. The carrying amount of financial assets and liabilities reported in the consolidated statement of financial position represents the maximum exposure to liquidity risk. Management is confident that adequate resources are available to meet current obligations. See note 2(b) in respect of the Board's going concern assessment, and note 21 regarding exploration commitments.

The residual undiscounted contractual maturities of financial liabilities are as follows:

#### 28 February 2025

	Less than 1 month US\$	1-3 months US\$	3 months to 1 year US\$	1-5 years US\$	Over 5 years US\$
Trade and other payables	120,808	-	-	-	-

#### 29 February 2024

	Less than 1 month US\$	1-3 months US\$	3 months to 1 year US\$	1-5 years US\$	Over 5 years US\$
Trade and other payables	161,648	-	-	-	-

# Bradda Head Lithium Limited

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 18 Financial instruments (continued)

#### Financial risk management (continued)

##### Credit risk

Credit risk is the risk of loss associated with the counter-party's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to receivables and cash balances with the maximum exposure being the reported balance in the statement of financial position. The Company holds available cash with licensed banks which have strong history. The Company considers the credit ratings of banks in which it holds funds in order to reduce exposure to credit risk. All funds are available on demand.

The receivables are actively monitored to avoid significant concentration of credit risk, and the Directors consider there to be no significant concentration of credit risk.

##### Interest rate exposure

Interest rate risk is the risk that the Company will sustain losses through adverse movements in interest bearing assets or liabilities; however, it is the Directors' opinion that the Company is not significantly exposed to interest rate risk. Any interest-bearing liabilities carry fixed interest rates and are not exposed to interest rate fluctuations.

##### Market price risk

Equity price risk arises from financial assets at fair value through profit or loss due to uncertainties about future values of the instrument. The investment at year end represents an interest held in the share capital of Strathmore Plus Uranium Corp, a company traded on the TSX Venture Exchange. The performance of this investment is monitored and reviewed by management on a regular basis. As at 28 February 2025, the fair value of equity security exposed to price risk was US\$ 22,472 (29 February 2024: US\$ 67,191). A 5% increase or decrease in the fair value of this listed investment, with all other variables constant, would have increased/decreased consolidated profit or loss and equity by US\$ 1,124 (29 February 2024: US\$ 3,360).

##### Foreign exchange risk

The Group was exposed to foreign currency risk on fluctuations related to financial assets and liabilities that are denominated in Pounds (GBP). The amounts exposed to foreign currency risk are as follows (in currency balance):

28 February 2025	Cash	<div>GBP</div> <div>16,911</div>
29 February 2024	Cash	<div>GBP</div> <div>38,482</div>

The impact of 10% strengthening of the GBP against the US Dollar to total comprehensive income/loss is set out below. A 10% weakening in these currencies would have had the equal but opposite effect, on the basis that all other variables remain constant.

US Dollars against:	28 February 2025	29 February 2024
GBP	<div>US\$</div> <div>1,691</div>	<div>US\$</div> <div>3,848</div>

There is no other impact on the Company's equity other than those already affecting the consolidated statement of comprehensive income/(loss).

# Bradda Head Lithium Limited

## Notes

*forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)*

### 18 Financial instruments (continued)

#### Financial risk management (continued)

##### Political risks

The Company's operations are subject to laws and regulations governing exploration activities. While the Company believes that it is in substantial compliance with all material current laws and regulations affecting its activities, future changes in laws and regulations, following any changes in standing governments, could result in changes in legal requirements, relevant policies or in the terms of existing agreements applicable to the Company which could have a material adverse impact on the Company's current operations or planned implementation of its strategy.

##### Accounting classifications and fair value

Financial instruments comprise cash and trade and other receivables accounts payable and accrued expenses (classified as trade and other payables), investments and convertible loan notes and working capital loan advances (classified as related party balances). The carrying amounts of loans and receivables and trade and other payables, reported in the consolidated statement of financial position, approximate their fair values due to the short-term nature of these accounts.

##### *Financial liabilities not measured at fair value*

	<i>Carrying amount, measured at amortised cost</i>	
	<b>28 February 2025</b>	<b>29 February 2024</b>
	<b>US\$</b>	<b>US\$</b>
Trade and other payables	<b><u>120,808</u></b>	<b><u>161,648</u></b>

The fair value of investments is based on available market price data, taking into account the liquidity of the listed securities.

##### Capital Management

The Company manages its capital to maximise the return to the shareholders through the optimisation of equity. The capital structure of the Company at 28 February 2025 consists of equity attributable to equity holders of the Company, comprising issued capital, reserves and retained earnings as disclosed.

The Company manages its capital structure and makes adjustments to it, in light of economic conditions and the strategy approved by shareholders. To maintain or adjust the capital structure, the Company may adjust any dividend payment to shareholders, return capital to shareholders or issue new shares and release the Company's share premium account. No changes were made in the objectives, policies or processes during the years ended 28 February 2025.

## Notes

forming part of the annual report consolidated financial statements for the year ended 28 February 2025 (continued)

### 19 Related party transactions and balances (continued)

#### *Edgewater Associates Limited ("Edgewater")*

During the year, Directors and Officers insurance was obtained through Edgewater, which is a 100% subsidiary of Manx Financial Group ("MFG"). James Mellon and Denham Eke are Directors of both the Company and MFG.

The premium payable on the policy was US\$ 42,563 (29 February 2024: US\$ 43,061), of which US\$ 10,854 was prepaid as at the period end (29 February 2024: US\$ 11,560).

#### *Burnbrae Limited ("Burnbrae")*

Burnbrae Limited, a Company for which Jim Mellon is the ultimate beneficial owner and Denham Eke is a Director, provide certain ad hoc services, to the Company. The charge for services provided is £1,500 per month, when provided, and totalled was US\$ 22,954 (2024: Nil) during the year, of which US\$63 was outstanding as at the year-end (2024: Nil).

### 20 Basic and diluted loss per share

The calculation of the basic earnings per share is based on the earnings attributable to ordinary shareholders divided by the weighted average number of shares in issue during the year.

The calculation of diluted earnings per share is based on the basic earnings per share, adjusted to allow for the issue of shares, on the assumed conversion of all dilutive share options.

An adjustment for the dilutive effect of share options in the current year has not been reflected in the calculation of the diluted loss per share, as the effect would have been anti-dilutive, due the Company recognising a loss for the year.

	28 February 2025 US\$	29 February 2024 US\$
Profit/(loss) for the year	1,100,162	(1,503,858)
	No.	No.
Weighted average number of ordinary shares in issue	390,609,436	390,609,436
Dilutive element of share options and warrants if exercised (note 16)	37,664,234	37,871,052
Diluted number of ordinary shares	428,273,670	428,480,488
Basic earnings per share (cents)	0.282	(0.385)
Diluted earnings per share (cents)	0.257	(0.385)

### 21 Exploration commitments

The Group has certain obligations to expend minimum amounts on exploration works on mining tenements in order to retain an interest in them, which would be approximately US\$ 343,540 during the next 12 months. This includes annual fees in respect of licence renewals. These obligations may be varied from time to time, subject to approval and are expected to be filled in the normal course of exploration and development activities of the Company.

### 22 Subsequent events

No post events occurred post yearend that require disclosure in the Statement of Financial Position.

### 23 Ultimate Controlling Party

In the opinion of the Directors, there is no ultimate controlling party.
